ACCELERATED DEATH BENEFIT SUMMARY and DISCLOSURE STATEMENT

EFFECTIVE DATE – The Accelerated Death Benefit Endorsement takes effect on the Policy Date.

PREMIUM – There is no additional Monthly Deduction or premium charge for the Accelerated Death Benefit Endorsement, however, there is an administrative fee required each time an Election for Terminal Illness is made.

The accelerated death benefits may provide benefits to pay for long-term care services but are NOT part of a long-term care or nursing home insurance policy and the amount these products pay may not be enough to cover your medical, nursing home or other bills. Accelerated Death Benefit Payments used to pay for long-term care services are subject to limits imposed by the federal government and any amounts received in excess of these limits are includible in taxable income. You may use the money you receive as an accelerated death benefit for any purpose. Unlike conventional life insurance proceeds, amounts payable as accelerated death benefits COULD BE TAXABLE UNDER SOME CIRCUMSTANCES. We recommend that you consult your personal tax advisor prior to electing an accelerated death benefit.

If you already have long-term care insurance, Medicaid, or similar coverage, you should consider whether the accelerated death benefits are suitable for your needs. Receipt of accelerated death benefits MAY AFFECT YOUR ELIGIBILITY FOR MEDICAID, SUPPLEMENTAL SECURITY INCOME ("SSI"), OR OTHER GOVERNMENT BENEFITS OR ENTITLEMENTS. Contact the Medicaid Unit of your local Department of Public Welfare and the Social Security Administration Office for more information.

THE BENEFIT AND ITS EFFECT ON POLICY PROVISIONS
For the purposes of this disclosure "Policy" is the same as Certificate and "Account Value" is the same as Policy Fund when referenced in any Policy, Endorsement, Rider or other communications.

For policies covering two lives where the insurance proceeds are payable upon the death of the Survivor, benefits under the Endorsement may only be elected after the death of the first Insured during the lifetime of the Survivor. The Survivor, not the first Insured, is the "Insured" for purposes of the Endorsement.

Upon written request by the Owner ("You" or "Your") of the Policy, the company ("We") will pay an Accelerated Death Benefit as described below, subject to the limitations and requirements described in the Accelerated Death Benefit Endorsement. Any assignee or Irrevocable Beneficiary must consent before we make an Accelerated Death Benefit Payment. The maximum Accelerated Death Benefit that We will accelerate on the Policy is $1,000,000. Accelerated Death Benefits will reduce the Death Benefit and Policy values, if any, which include but are not limited to the Account Value, Net Cash Surrender Value, and Policy Loan Value.

Accelerated Death Benefit for Terminal Illness: You may elect to receive advancement of the Death Benefit when the Insured has a Terminal Illness while the Endorsement is in effect.

An Insured qualifies as being Terminally Ill if a Physician has certified that the Insured's life expectancy is 24 months or less. The Terminal Illness benefit is not subject to underwriting eligibility requirements

The minimum Accelerated Death Benefit for Terminal Illness is the smaller of 10% of the Death Benefit on the Election Date or $100,000.

The maximum Accelerated Death Benefit for Terminal Illness is the smaller of 75% of the Death Benefit on the Election Date or $750,000.

North American Company • New Business Processing Center: P. O. Box 5089, Sioux Falls, SD 57117 • Principal Office: West Des Moines, IA
Phone: (800) 669-9100 • Fax: (800) 951-9430 • www.NorthAmericanCompany.com

The Accelerated Benefit Payment will be determined upon Your Election and will be paid in a lump sum. We will pay the present value of the Accelerated Death Benefit. An actuarial discount based on mortality and interest will be applied to the Accelerated Death Benefit and this discount reflects the early payment of the Death Benefit that is being accelerated. On the Election Date, the Accelerated Death Benefit Payment and the Policy Debt will be reduced by the Debt Repayment Amount.

We will waive the Monthly Deductions following the Election of Accelerated Death Benefits for Terminal Illness. Upon Election, all Endorsements and Riders attached to the Policy will continue to be effective subject to the terms and conditions of each Endorsement or Rider. After You receive Accelerated Death Benefits for Terminal, You may take Withdrawals; elect to increase or decrease the Specified Amount or change the Death Benefit Option; and obtain Policy Loans as described in the Policy.

Only one Election can be made for Terminal Illness. If the Insured dies after You elect to receive Accelerated Death Benefits, but before any Accelerated Death Benefit Payment is made, the Election will be cancelled and the Death Benefit will be paid as described in the Policy.

ACCELERATED DEATH BENEFIT SUMMARY and DISCLOSURE STATEMENT

IMPORTANT NOTICE TO APPLICANT/BUYER REGARDING ACCELERATED DEATH BENEFITS

The benefits provided by this Accelerated Death Benefit are not intended to provide, and will never provide, long-term care insurance, nursing home insurance, or home care insurance. If You are interested in long-term care or nursing home or home care insurance, You should consult with an insurance agent licensed to sell that insurance, inquire with the insurance company offering the accelerated death benefits, or visit the California Department of Insurance Internet Web site (www.insurance.ca.gov) section regarding long-term care insurance.

If You choose to accelerate a portion of Your Death Benefit, doing so will reduce the amount that Your beneficiary will receive upon Your death.

Receipt of accelerated death benefits may be taxable. Prior to electing to buy the Accelerated Death Benefit, You should seek assistance from a qualified tax adviser.

Receipt of Accelerated Death Benefits may affect eligibility for public assistance programs, such as Medi-Cal or Medicaid. Prior to electing to buy the Accelerated Death Benefit, You should consult with the appropriate social services agency concerning how receipt of Accelerated Death Benefits may affect that eligibility.

Payment of Accelerated Death Benefits paid under this Endorsement are intended for favorable tax treatment under Section 101(g) of the Internal Revenue Code. Accelerated death benefit payments due to chronic illness are subject to limits imposed by the federal government and any amounts received in excess of these limits are includible in gross income. You should seek assistance from a qualified tax adviser for assistance with any questions You may have.

PREMIUM – There is no additional Monthly Deduction or premium charge for the Accelerated Death Benefit Endorsement; however, there is an administrative fee required each time an Election for Chronic Illness is made.

THE BENEFIT AND ITS EFFECT ON POLICY PROVISIONS

For policies covering two lives where the insurance proceeds are payable upon the death of the Survivor, benefits under the Endorsement may only be elected after the death of the first Insured during the lifetime of the Survivor. The Survivor, not the first Insured, is the "Insured" for purposes of the Endorsement.

Upon written request by the Owner ("You" or "Your") of the Policy, the company ("We") will pay an Accelerated Death Benefit as described below, subject to the limitations and requirements described in the Accelerated Death Benefit Endorsement. Any assignee or Irrevocable Beneficiary must consent before we make an Accelerated Death Benefit Payment. The maximum Accelerated Death Benefit that We will accelerate on the Policy is $1,000,000. Accelerated Death Benefits will reduce the Death Benefit and Policy values, if any, which include but are not limited to the Account Value, Net Cash Surrender Value, and Policy Loan Value. In addition, because this benefit is paid prior to death, the actual payment You receive will be discounted and is lower than the Death Benefit amount accelerated.

Accelerated Death Benefit for Chronic Illness – Subject to meeting underwriting eligibility requirements, You may elect to receive advancement of the Death Benefit when the Insured is Chronically Ill while the Endorsement is in effect.

An Insured qualifies as being Chronically Ill if We receive a written certification from a Licensed Health Care Practitioner within the prior 12 months that the Insured:

1. Is expected to be permanently unable to perform for at least 90 consecutive days, without Substantial Assistance from another person, at least two Activities of Daily Living; or
2. Requires Substantial Supervision by another person to protect oneself from threats to health and safety due to Severe Cognitive Impairment.

Activities of Daily Living are: bathing, continence, dressing, eating, toileting, or transferring.

Agent Instructions: Provide the Proposed Owner a copy of this form; submit one copy to the Administrative Office and keep a copy for your records.

Severe Cognitive Impairment – means a loss or deterioration in intellectual capacity that is (a) comparable to (and includes) Alzheimer's disease and similar forms of irreversible dementia, and (b) measured by clinical evidence and standardized tests that reliably measure impairment in the individual's (i) short-term or long-term memory, (ii) orientation as to people, places, or time, and (iii) deductive or abstract reasoning.

The minimum Accelerated Death Benefit for Chronic Illness, at each Election, except the Final Election, is the smaller of 5% of the Policy Death Benefit on the Initial Election Date or $50,000.

You can accelerate an amount less than the minimum Accelerated Death Benefit for Chronic Illness allowed if it is necessary to do so to comply with the $1,000,000 maximum Accelerated Death Benefit limitation for this Endorsement.

The maximum Accelerated Death Benefit for Chronic Illness, at each Election, is the smaller of 24% of the Policy Death Benefit on the initial Election Date, or $240,000. This amount may be smaller for a Final Election.

A Final Election is available if the maximum Chronic Illness Accelerated Death Benefit at the time of Election is greater than the remaining Death Benefit in the Policy, minus the Residual Death Benefit. A Final Election occurs when You accelerate all of the Death Benefit in the Policy, minus the Residual Death Benefit. The Payment must first be applied to pay off any Policy Debt to Us.

Residual Death Benefit is the greater of 5% of the Policy Death Benefit on the Initial Election Date or $10,000. The Residual Death Benefit only applies to benefits for Chronic Illness.

We will waive the Monthly Deductions while an Election is in effect if the Death Benefit immediately prior to the Initial Election Date does not exceed $1,000,000. If the Death Benefit immediately prior to the Initial Election Date exceeds $1,000,000, while an Election is in effect the Monthly Deductions will be multiplied by the specified ratio, as described in the Endorsement. Monthly Deductions will stop being waived when an Election is no longer in effect.

An Election is effective for 12 months starting from the Election Date and only one Election can be made in this 12-month period.

While any Election is in effect, You cannot take Withdrawals or Policy Loans and You cannot elect to increase or decrease the Specified Amount or change the Death Benefit Option. After any Election, other than a Final Election, You may obtain Policy Loans as described in the Policy. A portion of the Accelerated Death Benefit Payment will be used to repay any Policy Debt.

If Your Policy, or a Rider or Endorsement attached to Your Policy, includes a Protected Death Benefit or Overloan Protection Benefit which restricts You from making changes to Your Death Benefit and You have elected to exercise such benefit, You may not elect Accelerated Death Benefits under this Endorsement.

Upon any Election other than a Final Election, all Endorsements and Riders attached to the Policy will continue to be effective subject to the terms and conditions of each Endorsement or Rider. Upon a Final Election, all Endorsements and Riders, except the Accelerated Death Benefit Endorsement, attached to the Policy will terminate on the Final Election date. After the Initial Election Date, no additional Endorsement and Riders may be added to the Policy.

If the Insured dies after You elect to receive Accelerated Death Benefits, but before the payment is made, the Election will be cancelled and the Death Benefit will be paid as described in the Policy. If a Final Election has occurred and payment is made, the Residual Death Benefit will be paid to the Beneficiary in a lump sum upon due proof of death of the Insured.

PROPOSED OWNER'S ACKNOWLEDGEMENT – I acknowledge that I received and read this Accelerated Benefit Summary and Disclosure Statement and the agent described and provided a comparison of the differences between benefits provided under accelerated death benefit and benefits provided under long-term care insurance.

☐ Monthly ☐ Quarterly ☐ Semi-annually ☐ Annually

Withdrawal Day of the Month (1st – 28th only): _____ Beginning: _____ (MM/YY)

Please note: If a specific day of the month is not indicated, the policy issue date will be used to determine timing. Selecting a withdrawal day of the month that is after the monthly Policy Date may initially result in deductions to pay both the current month and the next month premiums.

Payment Option 1: ☐ Deduct the **first and future** premium payments. (The first deduction will occur on or after the policy date and then at the intervals selected above.) (New Applicants Only)

Payment Option 2: ☐ Deduct the **future** premium payments only. (The initial premium payment is to be made by check. Premium is due on or before the due date (Policy Date).

Premium is due by the monthly Policy Date, and all applicable grace periods are based on that date and not the withdrawal date. **In addition, if your policy is not paid current upon the Company's receipt of this form (including any required supplemental documentation) in good order as determined by the Company, premium for a prior month(s) may be withdrawn and this could result in multiple payment withdrawals from the account. Please contact our office to ensure your policy is paid current and/or if you have questions about the due date of your policy.**

- I (We) acknowledge that this form must be completed in full and signed and that failure to complete any portion of this form may delay the processing of the request and any required premium payment.
- If I (we) submit a request to change my (our) EFT information, including but not limited to my (our) banking information or premium contribution amount, and the form is not in good order or lacks supplemental documentation the Company requires to process, the Company will cancel any previous existing EFT authorization and place the policy on a quarterly direct bill until the new request has been submitted complete and in good order and the updates have been processed by us.

NOTICE OF AIDS VIRUS (HIV) ANTIBODY TESTING AND CONSENT FOR TESTING

The Tests:

To evaluate your eligibility for insurance, the insurer named above has requested that you provide a sample of your blood, urine and/or other body fluid for testing and analysis to determine the presence of human Immunodeficiency virus (HIV) antibodies. By signing and dating this form you agree that this test may be done and that underwriting decisions will be based on the test result. A series of tests will be performed by a certified laboratory through medically accepted procedures.

Meaning of Test Results:

While positive HIV antibody test results do not mean that you have AIDS, they do mean that you are at seriously increased risk of developing AIDS or AIDS-related conditions. Federal authorities say that persons who are HIV antibody positive should be considered infected with the AIDS virus and capable of infecting others. Positive HIV antibody test results will adversely affect your insurance application. An HIV test will be considered positive only after confirmation by a laboratory procedure which is extremely reliable. Nonetheless, the HIV antibody test is not 100% accurate. Possible errors include:

False Positives: the test gives a positive result, even though you are not infected. This happens only rarely and is more common in persons who have not engaged in high risk behavior. Retesting should be done to help confirm the validity of a positive test.

False Negatives: the test gives a negative result, even though you are infected with HIV. This happens most commonly in recently infected persons; it takes at least 4-12 weeks for a positive test result to develop after a person is infected.

Side Effects:
A positive test result may cause you significant anxiety. A positive test may result in uninsurability for life or disability insurance policies you may apply for in the future. Although prohibited by law, discrimination in housing, employment, or public accommodations may result if your test results were to become known to others. A negative result may create a false sense of security.

AIDS:

Acquired Immunodeficiency Syndrome (AIDS) is a life-threatening disorder of the immune system, caused by a virus, HIV. The virus is transmitted by sexual contact with an infected person, from an infected mother to her newborn infant, or by exposure to infected blood (as in needle sharing during IV drug use). Persons at high risk of contacting AIDS include males who have had sexual contact with another man, intravenous drug users, hemophiliacs, and sexual contacts of any of these persons. AIDS does not typically develop until a person has been infected with HIV for several years. A person may remain free of symptoms for years after becoming infected. Infected persons have a 25-50% chance of developing AIDS over the next 10 years. Persons who have a history of high risk behavior should change these behaviors to prevent getting or giving AIDS, regardless of whether they are tested. Specific important changes in behavior include safe sex practices (including condom use for sexual contact with someone other than a long-term monogamous partner) and not sharing needles.

Disclosure of Test Results:

All test results will be treated confidentially. The results will be reported to the insurance company indicated above. The results may also be reported to that insurance company's affiliates, agents, or reinsurers in connection with insurance you have or have applied for. In addition, if your HIV antibody test is abnormal (positive), a generic code signifying a non-specific blood abnormality may be made known to the Medical Information Bureau (MIB, Inc.) as described in the notice given you at the time of application. The fact that the test has been done and the results of the test will not be otherwise disclosed except as may be required by law or as authorized by you. If your HIV antibody test is negative, no routine notification will be sent to you. If your test results are reported by the laboratory to the Company as being positive, you are entitled to that information.

You are asked to name a private physician so that the Company can have him or her tell you the test result and explain its meaning.

Life Application Completion Tips

Let us help you avoid application delays – starting with these tips.

First, the application and all forms must be completed in full, must be legible, and appropriately dated and signed. All pages of the application and forms must be submitted, we cannot accept just signature pages. Refer to forms factory for a full list of potential requirements. Using the information provided below will help ensure the application is completed in good order, which will result in a faster turn-around time and prevent additional requirements and/or questions by Underwriting and New Business.

1. Name(s)

- Provide full legal name(s) and have all forms signed using legal name(s).
- Required beneficiary information includes the full legal name, relationship and percent share. Percent share must equal 100 (33.33, 33.33 and 33.34 is acceptable).
- Please complete the owner section of the application if the owner is other than the proposed insured. If the owner is a company, please note the signature section of the application for additional requirements.

2. Payor Information

- Please indicate who is paying the premium on the application in the payor/billing information section. If the payor changes at any point in the process, that change will need to be acknowledged by the owner/insured via an amendment.

3. Temporary Life Insurance Agreement (TIA)

- If a TIA is desired, please mark the appropriate box in the Payment of Initial Premium section on the application along with all questions answered on the TIA form. Be sure to include initial premium, or documentation that the initial premium will be drafted (by selecting first and future on the EFT form), if TIA is intended.

4. Electronic Funds Transfer (EFT) Form

- Include a void check if possible. If the client does not have checks, fill out the type of account, routing number, account number and account holder name on the form.
- If the account to withdraw premiums from is a business account, documentation is required showing who the authorized signors are on the account. If the business is a corporation, we need a copy of the corporate resolution. If is it a Partnership or LLC, we need authorization on the company letterhead signed by the president, owner, or partner.

5. Replacement & 1035 Exchanges

- If replacement is involved, the name of the existing insurance company must be provided; 'Unknown' is not acceptable.
- If the application has a 1035 Exchange, be sure to include and fully complete the 1035 Exchange Form (L-2008). The 1035 form should be dated the same date as the application.

6. Illustrations

- A signed illustration is required before issue. We can accept an unsigned illustration for issue if we have the signed statement of illustration form.

7. Soliciting Agent Questions

- To avoid additional clarification, it is important that all soliciting agent questions are answered appropriately. Items to keep in mind for each question:
  - » Question 1 – All products for North American include the Accelerated Death Benefit endorsement. Therefore, the client should be provided with this information by the agent.
  - » Questions 2 & 3 – These answers must match what is provided in the replacement section.
  - » Question 4 – The answer should be 'yes.' The agent would need to make appropriate arrangements with phone clients to ensure they receive copies of approved sales material, if necessary.

8. Additional Tips

- To avoid delays and the possibility of additional requirements (a new application/forms), it is important to complete all contracting requirements before submitting the application.
- Applications and other documents via 'CamScanner' or pictures taken by cell phone will not be accepted.
- Electronic signatures are not accepted unless done through SimpleSubmit® e-app or DocuSign®.
- The policy date is the same day the policy is issued (unless other specific instructions are given).

TESTING FOR HIV INFECTION

Deciding to be tested for HIV, the *human immunodeficiency virus*, may not be easy. If you or someone you know has questions about being tested for HIV, here are some facts that may help.

What tests are most commonly used to detect HIV infection?

There are three types of HIV tests commonly used.

1. The **ELISA** is the standard screening test used to detect HIV antibodies in a sample of blood, urine or saliva. If HIV antibodies are detected by an ELISA, the test is repeated. If the second test reacts to the presence of HIV antibodies, the sample is tested using the Western blot and IFA to confirm. Results from this type of HIV test are usually available within one to two weeks.
2. The **rapid** HIV test detects antibodies to HIV-1. A small sample of blood is taken using a "fingerstick" or small pin prick to the finger. A positive test result suggests that antibodies to HIV are present. If HIV antibodies are not present in the blood, the test result is interpreted as negative. These preliminary results may be available in less than 30 minutes, after which a confirmatory test must be conducted. The confirmatory results are available within one to two weeks.
3. **Oral** HIV testing is an alternative to blood testing. The oral HIV test uses a sample of mouth tissue taken from the cheek and gum. This tissue contains high levels of antibodies and is free of most of the contaminants found in saliva. If a test result is positive, another test on the same sample is conducted automatically to confirm HIV infection. No needle or blood is involved in this type of HIV test. Test results are usually available within three days.

How long should I wait before being tested?

Before getting tested, it is important to wait three months from the time you think that HIV exposure may have occurred. This is enough time for most people to develop antibodies to HIV. The average time for HIV antibodies to appear is 25 days. Otherwise, a person may test negative even though they have HIV. This is called the "window period." During the "window period" and prior to HIV testing, you should avoid behavior that puts others at risk for HIV, including unprotected vaginal, anal or oral sexual intercourse and blood-to-blood contact, as in sharing needles.

Should I be tested?

If you think you might have been exposed to HIV, you are encouraged to seek individual counseling and testing. It is possible for people to be infected for years and to look and feel healthy, not knowing they are infected with HIV.

You may be at risk for HIV infection if you have—

- Shared needles and syringes.
- Had sex with anyone who injects drugs.
- Had sex with men who have had sex with other men.
- Had sex with multiple partners.

What is the difference between anonymous and confidential testing?

Anonymous testing ensures the privacy of the person being tested. This means that neither names nor any other identifying information that could link a person to their results is recorded. Instead, code names or numbers are used so that only the person who gets the HIV test can find out their test result.

Confidential testing ensures that no one can be given the results of an HIV test without the test taker's written permission, except as required by state law. Test results become part of a person's medical files at the facility where the test was administered. States that require HIV-positive test results to be reported are required by law to keep the information confidential.

Why is counseling recommended both before and after taking an HIV test?

Deciding whether or not to get an HIV test is not easy. Fear and worry about the test are very common feelings, both before the test and while waiting for the results. Many people fear the reactions of family, friends, employers and others if test results are positive. Counseling may help you decide what to do and how to respond to the results of the test.

Pretest counseling is important for a clear understanding of what the test is and what the test can and cannot tell you. It will help you understand if you are at risk for HIV infection and how to prevent the spread of HIV. Pretest counseling may vary from one test site to another.

Post-test counseling can help you understand what your test results mean. It can give you information about how to protect yourself and others from HIV, no matter what the test result is. If your result is positive for HIV infection, a counselor can also refer you for medical, legal and emotional support services, as needed, and can tell you about the kinds of services that are available in your area for people living with HIV infection.

What does a negative test result mean?

A negative test result shows that no HIV antibodies were found in your blood at the time the test was taken. A negative test result can mean either that you are not infected with HIV or that you are infected, but your body has not yet produced enough antibodies to show up on the test.

If you are advised to have the test repeated, avoid behaviors that put you and others at risk of HIV infection. Then, if you test negative six months later, you probably do not have HIV. To stay uninfected, you can take steps to protect yourself by not having sex without using a latex (or polyurethane) condom and by not sharing needles and syringes.

What does a positive test result mean?

A positive antibody test result means that you have HIV antibodies in your blood and you are infected with HIV. However, it does not mean that you have developed AIDS. The test cannot tell if or when you will develop AIDS.

A positive test result means that you can infect other people with HIV through sex (vaginal, anal or oral) or by sharing needles and syringes. Also, a pregnant woman who has HIV can infect her baby during pregnancy or birth or through breast feeding.

Your health care provider or HIV/AIDS counselor will talk to you in detail about your test results. He or she can also advise you about taking care of your health and about living with HIV infection. Several types of treatments are available that have helped people living with HIV stay healthy for many years. The goal of most treatments is to extend and improve the quality of life for people with HIV and AIDS by suppressing enough of the virus over time to avoid damage to the immune system. Although not a cure, many treatments have brought hope and new strength to people living with HIV and AIDS.

People living with HIV can get help in notifying sex or needle-sharing partners of their possible exposure to HIV through partner notification programs, which provide prevention counseling, HIV testing and referrals to other services. To learn about partner notification services in your area, contact your state or local public health department.

What else do I need to know?

- **Costs**—The cost for HIV testing varies. Some clinics offer free testing or request a small donation. Fees for tests given by private health care providers may be higher.
- **Laws**—Laws and regulations for reporting test results vary from state to state. Anonymous testing is not available everywhere. In some states, positive HIV test results must be reported to the local public health department, where they are kept confidential.

What about donating blood to get tested?

Do **not** donate blood to find out your HIV status. The Red Cross tests blood to safeguard the blood supply, not to provide a testing service for people who want to know their HIV status. Because these tests may not detect HIV infection in its earliest stages, people who think they may be infected could be putting other people at risk by donating blood. To find out where HIV testing services are available, call your local Red Cross chapter or station, health department or AIDS service organization.

How is HIV spread?

HIV is spread by—

- Having vaginal, oral or anal sex with someone who has HIV.
- Sharing needles or syringes with someone who has HIV.
- Pregnancy, birth or breast feeding, if the mother has HIV.
